OUR SERVICES:

Orion Consulting Staffing Models are designed to suite the best of HR practices defined by all segments of businesses. Currently we have the following models defined for our service delivery.

- Permanent Staffing Model
- Contract Staffing Model
- Advertisement Recruiting Model
- Turnkey Staffing Model

- **Permanent Staffing Model:**

Orion Consulting provides permanent staffing services to top companies who require selective and talented professionals on specific projects in a short period. At Orion we have a team of talented professionals who strive to provide the best of manpower to our esteemed clients.

- **Contractual Staffing Model:**

Through this model Orion Consulting provides skilled professionals at clients site for a defined period of 6 months to 1 year. The professionals will be on Orion Consulting rolls and would be carrying out the assigned tasks as defined by the client. Orion Consulting ensures that the professionals deputed at client's location adhere to the standards defined by the client. Organizations that require skilled professionals for a particular assignment opt for this model, enabling them to hire the right professional for the required period of time.

- **Advertisement Recruitment Model:**

Multinationals, Start-ups, Established companies often select this model. In this model Orion Consulting advertises for their requirements and Orion Consulting working hand in hand with the clients does the entire initial process of recruitment. This model is an effective model for start-ups and MNC trying to open their operations in India.

- **Turnkey Staffing Model**

This model is for companies who wish to recruit professionals at a very short notice. In this model the entire size of recruitment is known prior to the process of recruitment per se and is handled hand in hand with the client. This model ensures that quality staff are provided to our client at a very fast pace. Call centers, BPO units, even management companies, Product Launch, Marketing Campaigns are few of the areas this models fits.
